Introduction

- A set of web developer tools built into Firefox
- Can use them to examine, edit, and debug HTML, CSS, and JavaScript
- How to open?
 - More Tools > Web Developer > Web Developer Tools
 - Keyboard shortcut Ctrl + Shift + I or F12 on Windows and Linux, or Cmd + Opt + I on macOS.
- How to dock?
 - Click on 3 dots (ellipsis)
- How to close?
 - Click on the cross

Outline

- Page Inspector
- Web Console
- Network
- Storage

Page Inspector

- Page Inspector helps examine and modify the HTML and CSS of a page
- Important things to know
 - Select element button 
 - Examine and edit HTML 

Web Console

Toolbar | Errors | Warnings (2) | Logs | Info | Debug (10) | CSS | XHR | Requests | Settings

Message Pane

- Unknown property '-moz-osx-font-smoothing'. Declaration dropped. `_typography.scss:61:2`
- Expected declaration but found '@highlighted-link-state'. Skipped to next declaration. `_lists.scss:7:4`

Going to try to open en-us\tools\web_console\ui_tour/index.html in your editor `edit-actions.tsx:32:12`

```
>> const myString = "This is the best string ever";  
← undefined
```

```
>> console.log(myString);  
This is the best string ever debugger eval code:1:9  
← undefined
```

Command Line

```
>> |
```

- Logs information associated with a web page: network requests, JavaScript, CSS, security errors and warnings
- Error, warning and informational messages explicitly logged by JavaScript code running in the page'
- Enables you to interact with a web page by executing JavaScript expressions in the context of the page
- Important things to know
 - Settings
 - Clear Log
 - Javascript execution

Network

The screenshot shows the Chrome DevTools Network panel. Red arrows point to various UI elements: 'Clear log' (trash icon), 'Filter by URL' (funnel icon), 'Tools' (three arrows icon), 'Filter by type' (dropdown menu), 'Cache control' (checkbox), 'Throttling' (dropdown), and 'Action menu' (gear icon). The table below lists network requests with columns for Status, Method, Domain, File, Initiator, Type, Transfer Size, and Size. The first four rows show CSS files from developer.mozilla.org with a status of 200. The fifth row is partially visible.

Status	M...	Domain	File	Initiator	T...	Transfer...	Size
200	G...	developer.mozilla.org	home_featured.2b433e0000aa.css	stylesheet	C...	cached	2.7
200	G...	developer.mozilla.org	banners.92084d28db45.css	stylesheet	c...	cached	1.9
200	G...	developer.mozilla.org	mdn-subscriptions.dbb82432d74c.css	stylesheet	c...	cached	86
200	G...	developer.mozilla.org	print.ca192a439743.css	stylesheet	c...	cached	32
200	G...	developer.mozilla.org	subseam...	reset-mai...	i...	1.25 KB	61

- Shows all the HTTP requests Firefox makes, how long each request takes, and details of each request
- Things to Know
 - Toolbar
 - Network Request List
 - Network Request Details
 - Edit a request and resend

Storage

The screenshot shows the Chrome DevTools Storage panel. The left sidebar, labeled "Storage Tree", lists storage types: Cache Storage, Cookies, Local Storage, and Session Storage. The "Cookies" section is expanded, showing a list of cookies for the domain "https://developer.mozilla.org". The "Table Widget" in the center displays a table of cookies with columns: Name, Domain, Path, Expires on, and Last accessed. The "_ga" cookie is selected. The right sidebar, labeled "Sidebar", shows the details for the selected "_ga" cookie, including its value, creation time, domain, expiration, and security settings.

Name	Domain	Path	Expires on	Last accessed
_ga	.mozilla.org	/	Tue, 23 Feb 2021 1...	Sun, 23 Jun 2019 18:15:54 GMT
csrftoken	.developer.mozilla.org	/	Mon, 08 Jun 2020 0...	Sun, 23 Jun 2019 18:15:54 GMT
csrftoken	developer.mozilla.org	/	Thu, 26 Mar 2020 0...	Sun, 23 Jun 2019 18:15:54 GMT
dwf_sg_t...	.developer.mozilla.org	/	Fri, 19 May 2018 18:...	Sun, 23 Jun 2019 18:15:54 GMT
lux_uid	developer.mozilla.org	/	Sun, 23 Jun 2019 1...	Sun, 23 Jun 2019 18:15:54 GMT

Cookie Details:

- Name:** _ga
- Value:** "GA1.2.1812154749.1526560462"
- CreationTime:** "Thu, 17 May 2018 12:34:22 GMT"
- Domain:** ".mozilla.org"
- Expires:** "Tue, 23 Feb 2021 12:00:00 GMT"
- HostOnly:** false
- HttpOnly:** false
- LastAccessed:** "Sun, 23 Jun 2019 18:15:54 GMT"
- Path:** "/"
- Secure:** false
- sameSite:** "Unset"

- Can inspect various types of storage that a web page can use
 - Cache Storage — any DOM caches created using the Cache API
 - Cookies — All the cookies created by the page or any iframes inside of the page
 - IndexedDB — All IndexedDB databases created by the page or any iframes inside the page
 - Local Storage — All local storage items created by the page or any iframes inside the page
 - Session Storage — All session storage items created by the page or any iframes inside the page
- Things to Know (Cookies)
 - Column Details
 - Search
 - Add, Edit and Delete

Persistent

non-persistent
